

1 Beschreibung

Components of HWA AG are to be labeled as follows:

Part number / vendor number / factory day (day / year) / (serial number)

f.e.: 514104200.000.02/52491/36519/(25) (Factory day corresponds December, 31th 2019- 365th day in calendar year 2019)

Explanation:

The component number can be found on the order or HWA drawing. The vendor number can be found on the purchase order. The factory day must be defined individually by the supplier (batch tracing). The serial number (optionally requested by HWA (note on drawing)) is to be taken from the purchase order (individually determined on order) or specified individually by the supplier.

Exceptions (if not defined on the drawing):

For small and very small parts where there is no possibility of labeling the part itself, the respective packaging/ container is to be marked accordingly.

Basically, the following rule applies regarding the type of labeling:

- Marking type analogous to drawing.
- If the type of labeling is not specified, this should be requested by the supplier at the following address: info-konstruktion@hwaag.com.

Basically, the following rule applies to the location of the label:

- Marking type analogous to drawing.
- If the location of the label is not specified, this should be requested by the supplier at the following address: info-konstruktion@hwaag.com.

In case of identification with an ZB component number, this number must be provided with a hashtag : For example. # # 514123054.000.03

For other queries, please contact the following address: QM@hwaag.com
